

Through-hole (THT) soldering Test Socket

For BGA / Bumped chip / WLCSP / eMMC Package

0.80 mm pitch (from 0.80 mm up to 0.99 mm)

E-tec Interconnect AG is the world leading Test socket manufacturer

The Through-hole socket uses the same footprint as your chip. Socket is simply placed and wave soldered onto the PCB in the same way as the chip and it only requires a small amount of additional board space. Through-hole sockets are available with all retention systems. Please note, we will always request the chip data to ensure we offer a compatible socket.
